PROFESSIONAL PROFILE

I am passionate about FX and have a wide range of skills. I am experienced but inquisitive, I learn and adapt very fast to new environments and tools. I enjoy learning new skills and discovering new methods and am eager to learn from anyone. I Worked in games development for consoles (both current and next gen), PC titles and mobile games.

WORK EXPERIENCE

Senior VFX Artist - Blackbird Interactive

March 2017 - Present

Working on an unannounced title. Lead VFX artist on the team. Designed and helped build a new VFX system from scratch for a client server game with hundreds of units that is shipping on multiple platforms. Am the product owner of the VFX.

Senior VFX Artist - Capcom Vancouver

Oct 2016 - Feb 2017

Puzzle Fighter. Created character, Environment and UI effects in Unity, Wrote new shaders and drove the creation of new tools to allow for mobile optimization. Was in charge of setting the effects style and visual language.

VFX Artist - Kabam Vancouver

July 2016 - Oct 2016

Transformers Forged to Fight. Created all the mods effects and most of the base effects. Created the teleport effect for the bots and placements effects for the mods in the base.

VFX Artist - United Front Games

July 2015 - July 2016

Infinity 3.0 Marvel Battlegrounds Playset. Created geometry based effects that were enhanced by particle systems for new character moves. Created all stage traps effects and ambient effects.

UI Artist - United Front Games

July 2013 - July 2015

Tomb Raider: Definitive Edition / Sleeping dogs : Definitive Edition. Was part of the team that converted the game to the Xbox one and PS4. Adapted the UI to work on 1080p and added all UI graphical interfaces.

UI Artist - Relic Entertainment

Aug 2012 - May 2013

Company of Heroes 2. Created Icons, mini maps and all 3D assets in the UI interface (Medals/user icons and 3D animations for the UI interface).

WORK EXPERIENCE
